

**BABSON
COLLEGE**

GRADUATE
Student Handbook
2021-2022

GRADUATE STUDENT HANDBOOK

2021–2022

The ***Graduate Student Handbook*** is your guide to the academic and financial policies and guidelines you are expected to maintain as a student at Babson College. Additionally, the College has set forth behavioral expectations in the [Babson College Student Code of Ethics](#). You should consider these two guides as essential references. You will often be referred to these documents as they outline the responsibilities and expectations for each Babson student and community member. Part of these responsibilities is to take the time to become familiar with these documents; they will provide information and answer many questions you may have about the College and the College's behavioral expectations.

You are required to know the policies and procedures set forth in both the *Graduate Student Handbook* and *Babson College Student Code of Ethics*. Babson College reserves the right to change policies, procedures and requirements as deemed necessary, and without notice. All policy updates can be found in the most current versions of the *Graduate Student Handbook* and/or *Babson College Student Code of Ethics*, which can be accessed via the [BabsonHub](#).

This handbook was updated on October 1, 2021.

Babson College prohibits discrimination on the basis of race, color, national or ethnic origin, ancestry, religion, sex, sexual orientation, age, physical or mental disability, and veteran or other protected status. This policy extends to all rights, privileges, programs, and activities, including admission, employment, education, and athletics. In addition, Babson College respects, values, and benefits from diversity in the College community. The College, through the president, vice presidents, and deans, requests that all members of the community support efforts that reinforce the value of diversity throughout the curriculum and all aspects of campus life.

ACADEMIC POLICIES

GRADING SYSTEM

The F.W. Olin Graduate School of Business at Babson College uses one grading system for all programs. The official grades and their numerical values are:

A	4.00	B+	3.33	C+	2.33	F	0.00
A-	3.67	B	3.00	C	2.00		
		B-	2.67	C-	1.67		

ACADEMIC REQUIREMENTS

To be eligible for a Babson graduate degree or certificate students must attain a minimum 2.80 cumulative grade point average (GPA), based on a 4.00 scale, on all credits earned in the F.W. Olin Graduate School of Business. The minimum required number of credits earned by each program is as follows:

PROGRAM	CORE	ELECTIVES	TOTAL
Two-Year MBA	15 credits	30 credits	45 credits
One-Year MBA	15 credits	30 credits	45 credits
Part-time MBA	18 credits	27 credits	45 credits
Blended Learning MBA - Miami	46 credits		46 credits
Master of Science in Management in Entrepreneurial Leadership (MSEL)	30 credits	0 credits	30 credits
Master of Science in Advanced Entrepreneurial Leadership (MSAEL)	27 credits	3 credits	30 credits
Master of Science in Business Analytics (MSBA)*	18 credits	12 credits	30 credits
Master of Science in Finance (MSF)*	15 credits	15 credits	30 credits
Certificate of Advanced Management (CAM)	0-15 credits		9-15 credits

** Students in the MSBA and MSF Programs must complete their elective credits from a list of approved course options.*

GRADUATION REQUIREMENTS

Please note that the degree will be granted in the semester in which the student has met all academic course requirements and where the student is in good standing in all respects.

DEGREE TIME LIMIT

Program	Maximum Number of years allowed to complete program
MBA	8 Years from entry date
MSAEL	4 Years from entry date
MSEL	4 Years from entry date
MSF	4 Years from entry date
MSBA	4 Years from entry date
CAM	3 Years from entry date

Students eligible to take a leave of absence should keep in mind the program-specific time limit is still in effect.

An exception to the degree time limit requirement may be made at the sole discretion of the Office of Graduate Academic Services in unusual circumstances where compelling cause is demonstrated.

SATISFACTORY ACADEMIC PROGRESS

After each semester and module, the Academic Standards Committee (ASC) reviews the standing of all students whose cumulative GPA is below 2.80, who receive a failing grade or an incomplete grade in a course, or who receive a deliverable and/or course grade adjustment due to ineffective teamwork or failure to demonstrate collaborative teamwork. The ASC may in its discretion dismiss or issue a warning to any student in these cases. The ASC in its discretion may also mandate that a student take additional course work during the elective portion of the program to prove proficiency in the areas where the faculty has determined the student has not mastered the core skills. The committee will determine the criteria and conditions for continued study in all instances and communicate these in writing to the student.

Dismissal Policy: The decision to dismiss a student can occur at any time in the course of their studies if it is the consensus of the ASC in its discretion that continued study is not advisable. Students have the right to pursue one appeal of the dismissal decision of the ASC to the Graduate School Associate Dean of Innovation, whose decision is final. If a student is dismissed, the degree will not be awarded. Contact the Office of Graduate Academic Services for details.

SEMESTER AND MODULE GRADES

Course grades are available online on the Hub under the Grades section, generally within two weeks of the examination period. Students may not repeat a course for which they received a passing grade.

INCOMPLETE GRADES

A status of "Incomplete" ("I") may be given to a student only when there is documented evidence of a valid reason for failure to complete the work required in a course (e.g., sickness, death in family).

Students who receive an "I" must consult with the instructor to determine the work required to remove the "I." Faculty may administer makeup examinations for this purpose. The instructor will submit the new grade to the Registrar's Office after the student has fulfilled all course requirements.

An "I" must be cleared (by taking a makeup exam or submitting missing work) before the last class of the next semester in which the student is registered. If the student is not registered in the semester after the "I" is recorded, the student will have either 12 calendar months or until the end of the next semester for which they are registered, whichever occurs first, to resolve the "I." Incomplete courses that fulfill prerequisites for the following semester must be completed 72 hours before the end of the add/drop period. This earlier deadline provides faculty time to grade the outstanding work or exam and submit the final grades to the Registrar's Office before the end of add/drop. Students who do not make up incomplete work within the specified time period will receive the instructor's final grade based on normal course requirements, with a numerical value of "0" calculated into the final grade for all items that remain incomplete.

FAILING GRADES

Students must earn passing grades in all required courses. If a grade of "F" is earned in a required course, that course must be repeated. If a grade of "F" is earned in an elective course, the student must either repeat the course or successfully pass another elective. In any case where a student receives an "F," the original "F" grade and any subsequent passing grade are both factored into the student's cumulative GPA. The original "F" grade will remain on the student's transcript.

MBA students who complete all course requirements with a GPA below 2.80 may be permitted to take up to 6 additional credits to raise it at the discretion of the Academic Standards Committee. MS students may be permitted to take MBA elective courses (up to 6 credits) to raise their GPA with the approval of the Academic Standards Committee. If the student fails to raise their GPA to 2.80, the degree will not be awarded.

In all cases, students are responsible for the additional costs associated with taking these courses.

Certificates

In the CAM program, if a grade of "F" is earned in any course the student will be dismissed from the College and the certificate will not be awarded.

GRADE DISPUTES

Requests for a review of a grade in any course, regardless if a final exam was given or not, must be presented to the faculty member before the last day of classes of the fall or spring semester immediately following the semester in which the grade was earned. This policy applies to all students regardless of the student's status in the following semester. Please note a different policy applies to Incomplete grades.

The following procedure should be followed in a grade dispute:

- The student should first contact the faculty member(s) involved to discuss the matter. The purpose of the meeting is to check the accuracy of the grading process (confirming how the final grade was determined and the percentage of each deliverable in the final grade; and catching errors, if any, in the faculty grade sheets) and for the student to learn about their inadequacies and strong points. This procedure does not require the professor and student to agree on the final result. The obligation is simply to help the student understand the faculty's process in determining the grade.
- If the issue is not resolved, the student should then contact the respective division chair and file a written appeal explaining the student's position. The division chair will consider the appeal and issue a decision with reasonable promptness.

- If the issue remains unresolved, the student should then appeal to the Associate Dean of Innovation, whose decision is final and not subject to appeal.

CLASS ATTENDANCE

The Graduate School does not require class attendance with the exception of students taking classes in the Blended Learning format. Although attendance in class is not mandatory, faculty members may and often do include class participation as a significant component in calculating a student's course grade. Therefore, students should plan to attend all class sessions, whether in person or virtual, to avoid repercussions up to and including failing the course. It is the student's responsibility to notify the faculty before being absent unless the student is unable to do so (e.g. due to extreme illness or accident). Please see the Examinations and Grades section for policies related to attendance for final exams. With regard to absence due to religious observance, Babson College welcomes and values people and their perspectives and respects the interests of all members of the community. Babson recognizes the breadth of religious observance among students, faculty, and staff and the potential for conflict with scheduled components of the academic experience. Students are expected to review their syllabi and notify faculty within two weeks of the course's start of potential conflicts between course requirements and religious observances. In such an event, the instructor will provide reasonable accommodations that do not unduly disadvantage the student.

Blended Learning Miami program and Blended Learning format courses: Attendance at Face-to-Face sessions in Blended Learning format courses is required. Students in these courses may seek permission to miss a Face-to-Face session in cases with extenuating circumstances by contacting the Office of Graduate Academic Services. Students should plan their course schedules carefully as circumstances such as being enrolled in conflicting class schedules or having an appointment during class time are not approved absences. Students are further advised that approved absences will often result in significant make-up work as well as a reduced class participation grade as the Face-to-Face session is integral to successful completion of Blended Learning format courses.

Massachusetts General Laws Chapter 151C, Section 2B: "Any student in an educational or vocational training institution, other than a religious or denominational educational or vocational training institution, who is unable, because of his religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination or study or work requirement, and shall be provided with an opportunity to make up such examination, study, or work requirement that he may have missed because of such absence on any particular day; provided, however, that such makeup examination or work shall not create an unreasonable burden upon such school. No fees of any kind shall be charged by the institution for making available to the said student such opportunity. No adverse or prejudicial effects shall result to any student because of his availing himself of the provisions of this section."

CANCELLATION OF CLASSES

Members of the college's Crisis Response Team have developed a plan to monitor and address potential inclement weather providing for the safety and security of members of the Babson community.

With over 85% of our undergraduate students living on campus, the college generally remains open during inclement weather. In rare circumstances, the College determines school closure or delay based on 1. State of Emergency declared by the Governor and/or 2. Severe weather conditions that make it difficult to keep the campus roads and parking lots cleared. Since safety is the College's highest priority, students are advised to exercise their own judgment regarding traveling to campus during inclement weather and to communicate directly with their professors about specific issues regarding travel. Staff and faculty are also

advised to exercise their own judgment regarding traveling to work or remaining at home and some may choose to schedule class through WebEx or other available systems during inclement weather.

Courses that are taught in either a wholly online or Blended Learning format will not be cancelled but will move to an alternative delivery format. This includes closures that occur during a F2F session. In these circumstances students are expected to be available from the safety of their home, hotel, or office for Virtual Classroom sessions which will be conducted in lieu of the in-person F2F. If the campus is closed students may not come to campus. Students are expected to follow the instructions of Babson staff who will email updates and directions in the event of a campus closure.

During inclement weather, members of the Babson community can obtain updates regarding advisories and the status of College operations by accessing the Babson homepage, INFO phone line 781-239-4636, the www.babson.edu/emergency-preparedness website, and local news and radio channels (WBZ/Channel 4/WBZ 1030 AM, WHDH/Channel 7/WRKO 680 AM, WCVB/Channel 5, WFXT/Fox 25).

INTERNATIONAL STUDENT REQUIREMENTS

Full time enrollment: International students in F-1 or J-1 immigration status are required to be enrolled full time as defined by the College in order to maintain their lawful immigration status. Full-time enrollment at Babson consists of at least 12 credits per semester for the One Year MBA, Two Year MBA, and MSEL programs; and 9 credits for the MSF, MSBA, and CAM programs. Students can be under the full-time enrollment during their final semester.

Change of address: International students in F-1/J-1 immigration status are required to update their U.S. residential address with the U.S. Department of Homeland Security within 10 days of any change. This can be done through the www.babson.edu/changeofaddress.

Employment Authorization: International students in F-1/J-1 immigration status must get authorization prior to engaging in employment in the U.S. Specific work authorization (typically in the form of **Curricular Practical Training [CPT] for F-1 status or Academic Training [AT] for J-1 status**) is required **before** engaging in most internships (even if the position is unpaid). An Internship Application with an offer letter from the employer to the Office of Experiential Learning prior to applying for employment authorization at the Glavin Office in order to participate in most internships. More information can be found [here](#).

ELECTIVE POLICIES INTERNATIONAL REQUIREMENT

The International Requirement is required for fulltime MBA students who entered in Fall 2018 or earlier. Two-Year and One-Year MBA students are required to develop a global business perspective through first-hand international experience. Two-Year and One-Year students must fulfill the Foundation MBA International Requirement before graduation by participating in one of the following learning activities: Babson's project-based experiential learning courses or internships providing cross-cultural workplace immersion, the Babson Electives Abroad, the Semester Abroad Program, or by completing an international independent research project that has been approved by the Office of Graduate Academic Services. Two-Year and One-Year students with substantial international experience may be able to waive the International Requirement at the foundation level; such exemptions are determined on a case-by-case basis by the Office of Graduate Academic Services.

ONLINE ELECTIVES

- With the exception of residents of the State of Florida, domestic students in the part-time MBA program may choose to complete 100% of their electives online.
- International students enrolled in fulltime programs are eligible to enroll in up to 3 credits per semester in a blended or online course.

MANAGEMENT CONSULTING FIELD EXPERIENCE (MCFE)

Graduate MCFE projects are offered every semester to different student populations. Each project is 3 credits and is team based. Students may participate in a maximum of two projects; the projects must be held in different sessions. Students may not participate in two experiential learning projects simultaneously. The Office of Experiential Learning (OEL) will send a project catalog to students. Students must be in good academic standing and apply by the specified deadline to be considered. Students in the MSBA program are not eligible to participate in MCFE.

Prior to applying for a MCFE project:

- Part-time MBA students must have completed at least 12 credits of core
- One-Year and Two-Year MBA students must have completed the Babson Consulting Experience core course
- MSAEL students must have completed or be enrolled concurrently in at least 9 credits of core
- MSF students are eligible to complete Finance approved projects only

Additional Information regarding Graduate Experiential Learning can be found at <http://www.babson.edu/Academics/graduate/mba/experiential-learning/Pages/default.aspx>.

INDEPENDENT RESEARCH

Independent research is an individual effort and may be undertaken for academic credit with the prior approval of the student's faculty advisor, the appropriate division chair, and the Office of Graduate Academic Services. The student is responsible for recruiting their own faculty advisor and obtaining the advisor's consent and commitment before applying for an independent research project. Students work closely with the faculty advisor throughout the project. Authorization for an independent research project requires writing and submitting a formal proposal in accordance with the standards set forth by the F.W. Olin Graduate School of Business. Each independent research project conducted as an elective can provide 1.5 or 3 course credits. If a student wishes to complete more than 3 credits of independent research, they may contract for more than one project and can receive a maximum of 6 elective credits toward the degree for all independent research project(s). **All students must have a cumulative GPA of at least 3.00 to qualify. Any student interested in registering for independent research should visit the student portal for more information.**

To pursue independent research:

- Part-time MBA students must have completed at least 12 credits of core
- One-Year and Two-Year MBA students must have completed their first semester of core.

BABSON ELECTIVES ABROAD

The 3-credit elective abroad courses are scheduled during winter, spring, or summer breaks. These electives are open to all MBA students who have met these eligibility requirements:

- One-Year and Two-Year MBA students must have completed their first semester of core
- Part-time MBA students must have completed at least 12 credits of core

International Students: International students in F-1/J-1 immigration status should consult with an international student advisor in the Glavin Office before enrolling in a Babson Electives Abroad course to determine if there are any U.S. immigration implications.

SEMESTER ABROAD

Courses taken during a study abroad program at a Babson partner business school are considered residential credit and do not count as post-matriculation transfer credit. When approved, study abroad credit may be granted only for elective courses taken at a Babson partner business school when a grade of “C–” or better has been earned and the Office of Graduate Academic Services has received the official transcript. Note: only credit is transferred, not grades. The student’s Babson transcript will record study abroad credit with an asterisk. The Babson GPA does not include grades for courses taken at Babson partner business schools. Therefore, students will have the same GPA when they return from overseas as they had before they left.

In addition, with prior approval, students may pursue a semester abroad program at an accredited institution of their own choosing with the permission of the Office of Graduate Academic Services. Courses taken during a study abroad program not affiliated with a Babson partner business school will follow post-matriculation transfer credit policies.

CONCENTRATIONS

MBA Students may declare a concentration once they are registered for the first semester at Babson. If declaring a concentration it must be declared by the stated deadline in the student’s final semester. MBA students may declare up to two concentrations but can only double count 3 credits across the two concentrations. Concentrations are not degree requirements and students will not be able to delay their graduation due to outstanding concentration requirements. Concentrations are not printed on diplomas. Concentrations may not be retroactively declared post-graduation. Additional details of the MBA concentrations, including declaration deadlines, can be found on the Student Hub.

ADVANCED STANDING CREDIT

Policy for the Part-time MBA Program

The following information on advanced standing credit applies only to the Part-time MBA program.

Part-time MBA students must resolve all questions about advanced standing credit with Graduate Admissions during their first semester at Babson. Should a student’s request for advanced standing credit be denied or requested after their first semester, the student will be required to successfully complete the course at Babson. Students cannot take courses for which they have received advanced standing credit without first obtaining approval from the Office of Graduate Academic Services. In those rare cases in which approval is given, the advanced standing credit will be rescinded, whereby the previously granted credit hours are removed from the student’s transcript. To receive advanced standing credit, the student must have earned a grade of “B” or better from a nationally or regionally accredited college or university in the United States or in a comparable international program within five years of entering the MBA program.

Policy for Masters of Science in Business Analytics (MSBA) Program

The following information on advanced standing credit applies only to the MSBA program.

In rare circumstances, students may request prior academic coursework be applied to the MSBA program pending approval from the faculty director and Office of Graduate Admissions. The maximum amount of advanced standing credit that MSBA students may be granted is 6 credits. Advanced standing credit for MSBA **elective** courses is determined by equivalent graduate course work and based upon approval from Graduate Admissions and the MSBA faculty director. To receive advanced standing credit, the student must have earned a grade of “B” or better from a nationally or regionally accredited college or university in the United States or in a comparable international program within two years of entering the MSBA program.

MSBA students must resolve all questions about advanced standing credit with Graduate Admissions during their first semester at Babson. Should a student’s request for advanced standing credit be denied

or requested after their first semester, the student will be required to successfully complete the course at Babson. Students cannot take courses for which they have received advanced standing credit without first obtaining approval from the Office of Graduate Academic Services. In those rare cases in which approval is given, the advanced standing credit will be rescinded, whereby the previously granted credit hours are removed from the student's transcript.

Policy for Masters of Science in Finance (MSF) Program

The following information on advanced standing credit applies only to the MSF program.

In rare circumstances, students may request prior academic coursework be applied to the MSF program pending approval from the faculty director and the Office of Graduate Admissions. The maximum amount of advanced standing credit that MSF students may be granted is 6 credits. To receive advanced standing credit, the student must have earned a grade of "B" or better from a nationally or regionally accredited college or university in the United States or in a comparable international program within two years of entering the MSF program.

MSF students must resolve all questions about advanced standing credit with Graduate Admissions during their first semester at Babson. Should a student's request for advanced standing credit be denied or requested after their first semester, the student will be required to successfully complete the course at Babson. Students cannot take courses for which they have received advanced standing credit without first obtaining approval from the Office of Graduate Academic Services. In those rare cases in which approval is given, the advanced standing credit will be rescinded, whereby the previously granted credit hours are removed from the student's transcript.

Policy for Certificate Program

The following information on advanced standing credit applies only to the Certificate program.

Certificate students are not eligible to receive advanced standing credit. Students who have completed equivalent undergraduate or graduate coursework and earned a grade of "B" or better from a nationally or regionally accredited college or university within the last 5 years, and/or have passed the CPA, CFA, or CMA exam may be eligible to receive a waiver in order to meet prerequisite requirements. Students who have passed the CPA, CFA, or CMA will need to submit a copy of their exam results to Graduate Admissions.

WAIVER EXAM POLICIES

Policy for the Part-time MBA Program

The following information on waiver exams applies only to the Part-time MBA program.

Waiver examinations: Students may receive credit for certain core courses by passing a waiver examination. All waiver exams must be completed prior to enrolling in a course for which it is a prerequisite. Waiver exams are pass/fail. Credits and grades are not awarded for passing waiver exams and will not appear on the students' academic record. Students have one opportunity to sit for a waiver exam. If the student fails the exam they must subsequently complete the course. For more detailed information on the waiver examination process, please visit <http://studentportal.babson.edu/content/waiver-exams>.

Waiver exams are offered for the following courses: ACC7800, MKT7800, QTM7800, OIM7800, and FIN7800.

Policy for the Certificate of Advanced Management Program

The following information on waiver exams applies only to the Certificate of Advanced Management program.

Students may prove content competency for certain core courses by passing a waiver exam. By passing a waiver exam, students become eligible to register for upper level electives for which the waiver exam

course is a prerequisite. Waiver exams are pass/fail. Credits and grades are not awarded for passing waiver exams and will not appear on the students' academic record for the CAM program. All waiver exams must be completed in the student's first semester of the program. If a student has missed the waiver exam deadline but would like their situation to be considered for approval, they must contact the Office of Graduate Academic Services to review the request with an academic advisor. Waiver exams are not available for elective courses.

If a CAM student passes a waiver exam and later decides to enroll in the Part-time MBA program, the waiver exam credit will be applied towards the Part-time MBA degree. Waiver exam credit is valid for up to 5 years.

Waiver exams may be offered for the following courses: ACC7800, MKT7800, QTM7800, OIM7800, and FIN7800.

POST-MATRICULATION TRANSFER CREDIT

Graduate students are expected to complete all degree requirements in residence at Babson. Transfer credit for courses taken elsewhere after matriculation will be granted only in cases in which a student relocates (making the commuting distance to Babson impossible), or in certain other rare situations deemed appropriate by the Office of Graduate Academic Services at its discretion.

- The maximum post-matriculation transfer credit that may be granted to students in the One-Year and Two-Year MBA programs is 12 elective credits, provided the student has completed the core.
- The maximum post-matriculation transfer credit that may be granted to Part-time MBA students is 12 credits, provided the student has met the minimum residency requirement of completing at least half of the total degree requirements of the Part-time MBA program at Babson.
- Students in the MSEL Program are not allowed to transfer in credit post-matriculation unless approved in advance by the MSEL Faculty Director for courses required to demonstrate academic competency.
- The maximum post-matriculation transfer credit that may be granted to MSF students is 6 credits, provided the student has met the minimum residency requirement (MSF Core) of the MSF program. The combination of advanced standing credit and post-matriculation transfer credit may not exceed 6 credits.
- The maximum post-matriculation transfer credit that may be granted to MSBA students is 6 credits, provided the student has met the minimum residency requirement (MSBA Core) of the MSBA program. The combination of advanced standing credit and post-matriculation transfer credit may not exceed 6 credits.

All requests for approval to undertake coursework for post-matriculation transfer credit must be submitted to the Office of Graduate Academic Services and approved in writing before registering at another institution. Note, the acceptance of credits or degrees earned at Babson for transfer credit to another institution is at the discretion of the transfer institution.

Post-matriculation transfer credit for elective courses may be granted only for those offered in a degree-granting program comparable to AACSB-accredited or EQUIS-accredited schools, where the courses are substantially dissimilar in content to Babson elective courses, when a grade of "B" or better has been earned, and the Office of Graduate Academic Services has received the official transcript. The Office of Graduate Academic Services will coordinate with the appropriate division to determine approval of post-

matriculation transfer credit requests. Exceptions to this policy may be made in rare circumstances by appeal to the Associate Dean of Innovation.

Post-matriculation transfer credit for core courses may be granted only for courses taken at AACSB-accredited or EQUIS-accredited schools, where the courses are substantially similar in content to Babson core courses, when a grade of “B” or better has been earned, and the Office of Graduate Academic Services has received the official transcript. The Office of Graduate Academic Services will coordinate with the appropriate division to determine approval of post-matriculation transfer credit requests. Exceptions to this policy may be made in rare circumstances by appeal to the Associate Dean of Innovation.

Students in the Certificate of Advanced Management Program are not allowed to transfer in credit post-matriculation.

SECOND DEGREE POLICY

Students who have completed a prior Babson graduate credential may be granted Babson Earned Credit (BEC) in a future Babson MS or MBA degree according to the below guidelines. No credit will be given for core requirements in the One Year MBA, Two Year MBA, or Blended Learning Miami MBA programs. Neither enrollment in nor completion of a previous Babson credential guarantees admission into a future Babson graduate certificate or degree program. Credits will be denoted on the student’s transcript with an asterisk and grades from previous credentials will not be calculated into the GPA.

Students who earn the Certificate of Advanced Management and are accepted into either the MSF or MSBA program may bring in up to 12 Babson Earned Credits to the MS degree provided the specific courses apply to the selected degree.

Students who earn the Certificate of Advanced Management and are accepted into either the One Year, Two Year, or Part-time MBA program may bring in up to 18 Babson Earned Credits to the MBA provided the specific courses apply to the selected degree.

Students who earn a degree in either the One Year, Two Year, or Part-time MBA program and are accepted into either the MSF or MSBA program may bring in up to 15 Babson Earned Credits to the MS degree provided the specific courses apply to the selected degree.

Students who earn a degree in either the MSF, MSBA, or MSA program and are accepted into either the One Year, Two Year, or Part-time MBA program may bring in up to 22.5 Babson Earned Credits to the MBA.

In no circumstance may a student receive more than the total credits granted. For example, a student who completes CAM and is accepted into the Part-time MBA program may be granted up to 18 credits through a combination of ASC, BEC, TIO, PMTC, and waiver exams. If a student in the Part-time MBA program comes in with 18 credits of ASC and BEC they are not eligible to sit for waiver exams.

Credits earned may be applied to up to two credentials. For example, a student who completes the Certificate of Advanced Management and earns 9 credits may subsequently apply the credits to the MBA. The student may not then apply those same credits a third time to one of the MS degrees. Students considering a second or third credential are strongly encouraged to discuss their academic plans with the Office of Graduate Academic Services.

Applying Non-Degree credits toward a future degree

Graduate credits completed with a grade of “B” or better in a Babson non-degree course (such as Test It Out/TIO) may be applied as elective credit toward the Part-time MBA, MSBA, MSAEL, or CAM as long as the credits have been earned *within the next two program start terms* for the new certificate, MS, or MBA program and the course is approved for the specific program. Non-degree credits may not exceed 3 elective credits. Neither enrollment in nor completion of a non-degree course guarantees admission into a future Babson graduate certificate or degree program. Credits will be denoted on the student’s transcript

with an asterisk and grades from previous credentials will not be calculated into the GPA.

Applying MSA Credits toward a future degree

Graduate credits completed with a passing grade in the Babson MSA degree may be applied as elective credit toward a future Babson graduate degree as long as the credits have been earned within seven years of starting the new degree program. Neither enrollment in nor completion of the MSA program guarantees admission into a future Babson graduate degree program.

Applying MSF Credits toward a future degree

Graduate credits completed with a passing grade in the Babson MSF degree may be applied as elective credit toward a future Babson graduate degree as long as the credits have been earned within seven years of starting the new degree program. Neither enrollment in nor completion of the MSF program guarantees admission into a future Babson graduate degree program.

Applying MSBA Credits toward a future degree

Graduate credits completed with a passing grade in the Babson MSBA degree may be applied as elective credit toward a future Babson graduate degree as long as the credits have been earned within seven years of starting the new degree program. Neither enrollment in nor completion of the MSBA program guarantees admission into a future Babson graduate degree program.

Applying MSAEL Credits toward a future degree

Graduate credits completed with a passing grade in the Babson MSAEL degree may be applied as elective credit towards a future Babson MBA degree as long as the credits have been earned within seven years of starting the new degree program. Neither enrollment in nor completion of the MSAEL program guarantees admission into a future Babson graduate degree program.

Applying CAM credits toward a future degree

Graduate credits completed with a passing grade in a Babson graduate certificate may be applied toward a future Babson graduate degree as long as the credits have been earned within five years of starting the new degree program. Neither enrollment in nor completion of the Babson graduate certificate guarantees admission into a future Babson graduate degree program. Credits will be denoted on the student's transcript with an asterisk and grades from previous credentials will not be calculated into the GPA.

Applying graduate credits earned while enrolled as a Babson undergraduate student toward a future credential

Graduate credits completed with a passing grade while the student is enrolled as a Babson undergraduate student may be applied toward a future Babson credential as long as the credits have been earned within seven years of starting the new degree program. Neither enrollment in nor completion of Babson graduate courses guarantees admission into a future Babson credential. Credits will be denoted on the student's transcript with an asterisk and grades from previous credentials will not be calculated into the GPA.

DEFINITION OF TERMS

Where noted, part-time or full-time status refers **only** to credit load in any given semester. For applicable programs, students must petition the Office of Graduate Academic Services to change their status. Students can submit a change of status request through the Babson Hub.

SEMESTER WORKLOADS

Effective spring 2017, full-time enrollment in the Certificate of Advanced Management program consists of at least 9 credits per semester.

Part-time students may take 1 to 12 credits per semester. The average is 6 credits. Full-Time students in the One-Year and Two-Year MBA programs take at least 12 credits per semester, with the exception of their final semester when they may take fewer depending upon the total remaining to graduate. Students who want to take more than a standard full-time course load must obtain written permission from the Office of Graduate Academic Services before registering for the additional course(s). See chart below for program specific credit information:

Program	Number of credits to complete the program	Number of credits per semester to be considered full-time*
Certificate of Advanced Management	9 to 15	9
Part-time MBA	45	12
Blended Learning MBA - Miami	46	12
One Year MBA	45	12
Two Year MBA	45	12
MSF	30	9
MSEL	30	12
MSBA	30	9
MSAEL	30	N/A

*International students are allowed to be enrolled less than full-time in their final semester.

EXAMINATIONS

The Registrar's Office will publish the final exam schedule for day and evening elective courses and will make it available at www.babson.edu/registrar. Evening course final exams are given during the final class meeting, unless the instructor announces alternative plans. Instructors will schedule the final exams for day and evening courses held during the first half of the semester. Permission to miss a final exam must be obtained before the exam, from the Office of Graduate Academic Services in cases with extenuating circumstances.

Such extenuating circumstances include, but are not limited to:

- serious illness supported by a doctor's certification,
- death in the immediate family, or
- observance of a religious holiday.

The following are **not** considered extenuating circumstances:

- oversleeping,
- travel

- disabled vehicles, or
- misunderstanding the schedule.

A student who has either a time conflict or more than six hours of exams scheduled for one day may arrange for a revision of their schedule by contacting the Registrar's Office. The Final Exam Conflict form is available in the Final Exams section at www.babson.edu/registrar and must be turned in to the Registrar's Office no later than one week before the final exam period begins.

ACCESSIBILITY SERVICES

Babson College welcomes students with disabilities to participate fully in all aspects of their college experience. Babson College is prepared to modify policies, practices, and procedures, as necessary, to assure that students with disabilities have full access to all programs, services, and benefits of the institution. This includes, but is not limited to, classroom and exam accommodations, housing and dining accommodations, assuring architectural and facilities access, and modifications of policies that might have a differential impact on students because of disability. Our policy is consistent with relevant governmental statutes and regulations surrounding issues for students with disabilities including those pursuant to the Americans with Disabilities Act of 1990 (amended in 2008), Title IX of the Federal Education Amendments of 1972 and Section 504 of the Federal Rehabilitation Act of 1973. The College provides students with reasonable accommodations in a timely manner when such accommodations are necessary to afford goods, services, facilities, privileges, advantages, or accommodations to individuals with disabilities unless providing the accommodation would fundamentally alter the nature of the goods, services, facilities, privileges, advantages, or accommodations. The mission of Accessibility Services is to collaborate and empower students with disabilities to coordinate support services and programs that enable equal access to an education and college life.

Accessibility Services is responsible for evaluating and coordinating services for students with disabilities. Available support services for students with documented disabilities include, but are not limited to, academic accommodations; housing and dining accommodations; temporary medical condition accommodations; modifications to College policies, rules, and regulations; environmental adjustments such as the removal of architectural, communication, or transportation barriers; and auxiliary aids and services.

Accessibility Services staff utilize an interactive review process to determine the necessary accommodations. Students requesting accommodations must register with Accessibility Services through the Accessible Information Management ([AIM](#)) portal, participate in an intake interview, and submit current documentation, as required. Babson College is not responsible for ensuring academic accommodations for students who identify themselves only to faculty or staff and not directly to Accessibility Services or identify themselves subsequent to the completion of academic requirements or projects.

Exam Accommodations

To ensure exam accommodations can be arranged in a timely manner, students must discuss exam arrangements with the faculty at the start of each course. If determined that the student will not take the exam with faculty, the student and faculty may request help making exam accommodation arrangements by emailing accessibility@babson.edu the exam schedule at the start of the course. Once the exam schedule is received, Accessibility Services will coordinate exam logistics with student, faculty, and Graduate Academic Services. Courses may have "on-campus exams" or "online exams."

The exam structure will vary depending on the Graduate program and the preference of the faculty.

- Online Exam: The faculty will provide students approved for exam accommodations the extra time online. If faculty have questions about how to set up the "extra time exam" on Canvas,

faculty should call the Faculty Support line at 781-239-5400.

- On-campus Exam: The faculty may make exam arrangements privately with the student; or, the faculty and the student may ask Accessibility Services to coordinate exam accommodations. These requests must be submitted at the start of the course to ensure exam arrangements in a timely manner.

Recording Classes

Babson College prohibits the use of recording devices to record class lectures or discussions unless a student has received the prior written approval of the professor, lecturer, guest lecturer, or speaker or has received prior written approval from Accessibility Services. The recording may not be accessed or used by any other individual. The recording may not be reproduced, transcribed, distributed, publicly played, or transmitted without the prior written approval of the professor, lecturer, guest lecturer, or speaker. In accordance with the above policy, all students should be aware that any class, including class discussions, may be subject to recording.

Additional information, as well as policies and procedures, can be found on the [BabsonHub](#), or by emailing Accessibility@babson.edu or by calling 781-239-5509.

ASSESSMENT OF LEARNING GOALS

The F.W. Olin Graduate School of Business has established learning goals for each program.

MBA Learning Goals

Babson College prepares graduate students to be entrepreneurial leaders. Our curriculum builds **functional depth with integrative ability through classroom, experiential and project-based learning**. In the classroom, across campus, and in the wider world, our students experience this within our framework of entrepreneurial thought and action. Through increased self-awareness, expanded mindsets, and refined skillsets, graduates will apply what they have learned and developed to address the greatest challenges of business and society today including innovation, growth, integrated sustainability, and globalization. They achieve this by starting new ventures or contributing to established organizations. The Babson student experience is guided by learning goals.

Graduates will be able to do the following:

- **Collaboration**: Collaborate with and learn from others to accomplish a common goal or create an original work.
- **Communication**: Develop and express ideas strategically, through written, oral, and visual formats, to a specific audience for a desired purpose.
- **Leadership**: Lead people to work towards shared goals with consideration of the ethical implications of their actions.
- **Problem-Solving**: Analyze and assess ideas and data to make decisions and recommendations appropriate to situations and stakeholders.

MSEL (MSM in Entrepreneurial Leadership) Learning Goals

- **Entrepreneurial Thinking and Acting**: Babson MSEL graduates create, identify, assess, shape, and act on opportunities in a variety of contexts and organizations.
- **Social, Environmental, and Economic Responsibility**: Babson MSEL graduates make decisions based on an awareness of relevant stakeholders, ethical considerations, and an attempt to create and sustain social, environmental, and economic value.
- **Self and Contextual Awareness**: Babson MSEL graduates understand their sense of purpose, identity, and context, and use this understanding to inform their decisions.
- **Managing in a Global Environment**: Babson MSEL graduates incorporate social, political and economic context and complexities when managing in a global environment.
- **Leadership and Teamwork**: Babson MSEL graduates exercise appropriate leadership, value diverse perspectives and skills, and work collaboratively to accomplish organizational goals in a changing environment.
- **Innovative Problem Solving**: Babson MSEL graduates develop creative solutions to challenging problems, and generate economic and socially valuable outcomes.

MSAEL (MS in Advanced Entrepreneurial Leadership) Learning Goals

- **Creative Design Thinking**: Challenge assumptions and solve problems through an iterative, human-focused process.
- **Enhanced Emotional Intelligence**: Strengthen your ability to mobilize and enlist others to lead effectively.
- **Managing Disruption**: Navigate uncertainty by mastering an agile mindset and learning how and when to pivot.
- **Performance Measurement to Articulate Impact**: Illustrate ideas and tell stories using data to ensure sustainable, quantifiable financial performance.
- **Strategic Problem Formulation**: Pinpoint the problem and structure your analysis to lay the groundwork for entrepreneurial action.

MSF (MS in Finance) Learning Goals

- **Technical Skills in Finance**: Babson MSF graduates are proficient in applying quantitative methods and financial analysis techniques in a variety of contexts. These include statistical analysis of financial and economic data; valuing corporate investment decisions; valuing firms; and valuing a variety of financial instruments including equities, fixed income, and derivative securities.
- **Complex Financial Problem Solving**: Babson MSF graduates appreciate the ambiguity that surrounds the most interesting business and financial problems. They are adept at extracting salient issues from a complex problem, identifying appropriate analytical techniques, applying judgment, and proposing well-reasoned recommendations.

- **Ethical and Professional Standards:** Babson MSF graduates are prepared to recognize and respond to ethical issues that arise in the financial profession and financial practice. They also understand professional standards in financial fields, and how these may vary.

MSBA (MS in Business Analytics) Learning Goals

- **Enterprise Strategy:** Babson MS in Business Analytics graduates understand the role that advanced analytical techniques can play in the successful achievement of the goals and strategies of an organization. They understand the strengths and limitations of various analytical approaches as well as the social, ethical, environmental, and sustainability consequences of strategic decisions.
- **Tools and Methods:** Babson MS in Business Analytics graduates integrate tools and analytic methods to maximize the value of data in the organizational context. They can select appropriate tools and interpretive methods to ensure that each organizational challenge is addressed using the right approach at the right time.
- **Entrepreneurial Thinking and Acting:** Babson MS in Business Analytics graduates understand and appreciate the complexities of business and social problems. With solid training in technical and communication skills, they are prepared to design and execute innovative and creative solutions based on data analytics in a variety of contexts and organizations.
- **Communication Skills:** Babson MS in Business Analytics graduates are proficient communicators of insights derived from data. They can understand the results from advanced analytical techniques and summarize them appropriately for a variety of different audiences. They can make a logical, clear, and persuasive case for or against the value of using analytics in a particular business situation.
- **Teamwork and Collaboration:** Babson MS in Business Analytics graduates value diverse perspectives and skills within a team and work collaboratively in analytics projects.

Babson assesses these desired student learning goals as part of its commitment to continual program improvement. The assessment of these learning goals will take place periodically within identified courses in each program. The data collected will be completely anonymous and will have no impact on student grades. Aggregated results will be used for program planning and accreditation purposes within the F.W. Olin Graduate School of Business and Babson College, and may be included in institutional research analyses and reports. Further information about the learning goals and assessments may be obtained from the Assistant Dean of the graduate school or the director of Institutional Assessment.

AUDIT POLICY

The graduate program does not permit auditing of graduate-level courses.

TRANSCRIPT REQUESTS

The Registrar's Office has partnered with the National Student Clearinghouse to provide an online ordering service for processing transcript requests. The National Student Clearinghouse offers electronic and printed transcripts. Transcripts may be requested by clicking on the Registrar's link on the Babson Hub and completing a Transcript Request form.

LEAVE OF ABSENCE

Students are eligible to take a leave of absence for a period of up to two consecutive years. The application for a leave must be submitted to the Office of Graduate Academic Services at least two weeks before the start of the semester in which the leave would begin, except in the event of an emergency that would preclude the giving of such advanced notice. All leaves will carry a specific expiration date. Students who wish to return early must inform the Office of Graduate Academic Services in writing at least four weeks before the desired date of return.

- One Year and Two-Year MBA students must complete the first semester of core to be eligible for a leave of absence.
- Blended Learning Miami students should contact the Office of Graduate Academic Services for appropriate guidelines for obtaining permission to take a leave of absence.
- Requests for Leave of Absence for students in the MS programs are considered in rare circumstances on a case-by-case basis by the Office of Graduate Academic Services and, if approved, may require students to extend their program graduation date in order to meet degree requirements.
- Requests for Leave of absence in the Certificate in Advanced Management (CAM) are considered in rare circumstances on a case-by-case basis by the Office of Graduate Academic Services and may require students to extend their certificate completion date in order to meet program requirements.

To be “reactivated,” the student must notify the Office of Graduate Academic Services in writing at least four weeks before the desired date of return. When a student wishes to return from leave, the Office of Graduate Academic Services will review the student’s record and notify the student of any changes to course requirements. For example, if a student fails to return after the maximum two year, time limit the Office of Graduate Academic Services may rescind advanced-standing credit previously granted and/or any credit earned at Babson toward the MBA or MS degree. Students may be subject to any new policies instituted during their leave.

Any student on leave who does not return on the specified date or is not registered for courses and is not on an approved leave of absence will be removed from all mailing lists. Any student who has not enrolled in courses for two consecutive years or more will be withdrawn from the F.W. Olin Graduate School of Business and must petition the Office of Graduate Academic Services in writing for readmission.

International Students

International students in F-1/J-1 immigration status who withdraw, are suspended, or take a leave of absence will lose their permission to remain in the United States in F-1/J-1 immigration status (exceptions exist for documented medical conditions pre-approved by the Glavin Office). Any international student in F-1/J-1 immigration status who expects to separate from the College because of one of the above mentioned events or who is considering taking less than a full course load must speak with an international student advisor in the Glavin Office about immigration implications and possible options **before any action is taken**.

VOLUNTARY, COLLEGE-INITIATED, AND EMERGENCY INTERIM MEDICAL WITHDRAWALS

1. PURPOSE AND INTENT:

Babson College (“the College”) endeavors to provide a safe and healthy living and learning environment in which all qualified students can participate in the College’s programs and activities and successfully

pursue their academic, personal, social, and emotional development.

The College recognizes that students may experience medical issues which limit their ability to function safely or successfully as students. The College offers a variety of medical, academic, and administrative resources to assist and support students in such situations, and makes reasonable accommodations to allow students with documented disabilities to have equal access to College programs and activities.

When a student's personal well-being may be at risk or when a student experiences a medical issue that may prevent the student from participating in the College's programs and activities regardless of accommodation, the student is encouraged to consider a voluntary medical withdrawal from the College. Although students remain eligible to take other types of leaves in accordance with applicable College policies and procedures, a voluntary medical withdrawal may carry certain advantages, including more flexible withdrawal timelines, less disruption to scholarships and funding, and tuition/housing refunds as determined by appropriate College officials.

When the College becomes aware of a student who is unable to safely participate in the College's programs and activities regardless of accommodation or who presents a high probability of substantial harm to health or safety, the College may also consider the appropriateness of involuntary medical withdrawal from the College and/or emergency interim medical withdrawal according to the standards and procedures described in this Policy.

Student conduct that violates the College's Community Standards remains subject to the Student Conduct Process regardless of whether such conduct violation results from or is exacerbated by a medical condition. Actions taken pursuant to this Policy do not affect the student's obligation to comply with other College policies or, where applicable, sanctions to which the student may be subject as a result of any violation of such policies.

This Policy is designed to ensure that students are given individualized attention, support, care, and consideration in addressing medical issues that may arise or escalate during matriculation. The College will apply this Policy to all students in a nondiscriminatory manner using a flexible and individualized process to facilitate student success. Decision makers acting under the Policy will make determinations on the basis of objective evidence of student behavior and reasonable judgments based on professional assessments and current medical knowledge—not on the knowledge or belief that a student may be an individual with a disability.

Whenever a College official is referenced in this Policy, such reference shall include another official designated to carry out such official's duties in their absence or the person who otherwise assumes such duties.

2. VOLUNTARY MEDICAL WITHDRAWAL (“VMW”)

When a student's personal well-being may be at risk, or when a student experiences a medical issue that may prevent them from participating in the College's programs and activities regardless of accommodation, the student is encouraged to consider a VMW. The VMW process is designed to be reasonable and flexible, and to proceed as quickly as possible to allow a student experiencing difficulties due to a medical condition to receive the care, support, and treatment they need.

Students wishing to initiate a VMW should contact the Director of Health Services and/or the Director of Counseling Services (each, an “Appropriate Health Service”). The Appropriate Health Service will meet with the student, if feasible, and review any medical documentation provided. The Appropriate Health Service will then submit a recommendation for a VMW if it determines that the student has a medical issue that prevents the student from participating in the College's programs and activities regardless of accommodation, or otherwise compromises the student's safety, well-being, or academic success. As appropriate, the Appropriate Health Service will make individualized treatment recommendations

designed to help the student become academically and personally ready to resume life at the College with or without reasonable accommodation.

The recommendation for a VMW and any relevant supporting documentation will be submitted to the Associate Dean of Students for Wellness or designee ("Associate Dean") for review. The Associate Dean may consult with the Appropriate Health Service and others as appropriate in evaluating the recommendation and any relevant supporting documentation. Based on an individualized review of the facts and circumstances, the Associate Dean will make a final determination as to whether and for what length the VMW will be granted, and will notify the student in writing. The student will also be notified of specific conditions, if any, that may be required in order to return to the College, based on the nature and individual circumstances of the VMW.

A student may appeal the denial of a request for VMW in accordance with the Appeal Process set forth below.

3. COLLEGE-INITIATED MEDICAL WITHDRAWAL ("CIMW")

The College may initiate a medical withdrawal when it becomes aware of a student who is unable to safely participate in the College's programs and activities or who presents a high probability of substantial harm to health or safety.

The College may initiate a CIMW only under the limited circumstances and only in accordance with the procedures set forth in this Policy. CIMW may only be initiated: (i) after reasonable efforts to obtain student cooperation for a VMW have been attempted, if feasible; (ii) after other available interim measures have been deemed inappropriate, insufficient, or unsuccessful; and (iii) as a non-disciplinary action.

In evaluating whether the College will initiate a medical withdrawal, the Associate Dean will convene a medical withdrawal committee ("Committee"). The Committee will be composed of the Associate Dean and one or more representatives from the Appropriate Health Service, along with other College officials with relevant knowledge and expertise who may have direct insight into the conduct or behavior of concern, such as representatives from the Office of Accessibility Resources or Student Affairs.

The Committee will conduct an individualized assessment of the student's present ability to safely participate in its programs and activities based on objective evidence and documentation. The individualized assessment will evaluate whether there is a high probability of substantial harm in light of: (i) the nature, duration, and severity of the risk; (ii) the probability that injury will occur; and (iii) whether reasonable accommodations can sufficiently mitigate the risk. The Committee will exercise reasonable judgments that rely on current medical information and documentation.

If the Committee determines that the student is unable to safely participate in the College's programs and activities or presents a high probability of substantial harm to health or safety, it will submit a recommendation for a College-Initiated Medical Withdrawal ("CIMW"). The recommendation and any relevant supporting documentation will be submitted to the Vice President for Student Affairs or designee ("Vice President") for review. As appropriate, the Appropriate Health Service will make individualized treatment recommendations designed to help the student become academically and personally ready to resume life at the College with or without reasonable accommodation.

Upon receipt of a recommendation for a CIMW, the Vice President will carefully review the recommendation and any relevant supporting documentation. The Vice President may consult with the Appropriate Health Service and others as appropriate in evaluating the recommendation and any relevant supporting documentation. If, based on an individualized review of the facts and circumstances, the Vice President conditionally determines that a CIMW should be granted, the Vice President will notify the student in writing. The student will be afforded three business days to submit a written statement and

any other documentation or materials relevant to the conditional CIMW and the student's desired outcome before a final determination is made by the Vice President. If warranted under the circumstances, the Vice President may restrict the student from attending classes, living in college housing, or otherwise accessing campus property or participating in College activities during the conditional CIMW.

Based on an individualized review of the facts and circumstances, the Vice President will make a final determination as to whether and for what length the CIMW will be implemented, and will notify the student in writing. The student will also be notified of specific conditions, if any, that may be required in order to return to the College, based on the nature and individual circumstances of the CIMW.

A student placed on CIMW may appeal in accordance with the Appeal process set forth below.

4. EMERGENCY INTERIM MEDICAL WITHDRAWAL ("EIMW")

The College may initiate an emergency interim medical withdrawal ("EIMW") when it reasonably determines that a student presents an imminent risk of substantial harm to health or safety.

The College may initiate an EIMW only under the limited circumstances and only in accordance with the procedures set forth in this Policy. An EIMW may only be initiated: (i) after reasonable efforts to obtain student cooperation for a VMW have been attempted, if feasible; (ii) after other available interim measures have been deemed inappropriate, insufficient, or unsuccessful; and (iii) as a non-disciplinary action.

The Vice President may implement an EIMW after conducting an individualized assessment based on objective evidence and documentation. The individualized assessment will evaluate whether there is an imminent risk of substantial harm in light of: (i) the nature, duration, and severity of the risk; (ii) the probability that injury will occur; and (iii) whether reasonable accommodations can sufficiently mitigate the risk. The Vice President will consult with the Appropriate Health Service and others as appropriate, and will exercise reasonable judgments that rely on current medical information. Circumstances permitting, the Vice President will convene a Committee to assist in the individualized assessment.

The duration of an EIMW will be limited to the period necessary to address the imminent risk of substantial harm to health or safety. While under EIMW, the student is prohibited from attending classes or living in College housing, and may be trespassed from campus or other College facilities and/or prohibited from participating in College activities if warranted under the circumstances.

A student placed on EIMW will be notified in writing by the Vice President as soon as possible. The student will also be notified of the specific conditions that are required in order to return to the College, based on the nature and individual circumstances of the EIMW. A student placed on EIMW may appeal in accordance with the Appeal process set forth below.

The EIMW process is intended to address emergency situations on an interim basis. Where appropriate and in accordance with the terms and conditions of this Policy, an EIMW may be converted to a VMW or a CIMW.

5. RETURN FROM VOLUNTARY, COLLEGE-INITIATED, OR EMERGENCY INTERIM MEDICAL WITHDRAWAL

All conditions for returning to the College will be the same for VMW and CIMW. The conditions for returning to the College from an EIMW will be equivalent, except that relevant timelines will be adjusted to account for the interim nature of the withdrawal.

The goal of a medical withdrawal is to ensure that students return with an increased opportunity for academic and personal success. Students are encouraged to take the time necessary to achieve this goal.

Students may wish to periodically check in with the Associate Dean during their leave, as indefinite leaves will not be permitted.

A student seeking to return to the College from a medical withdrawal should take the following steps to initiate the re-enrollment process:

- A. Contact the Appropriate Health Service and provide all required documentation. With the exception of students placed on EIMW, it is requested that students submit all material by December 1 for consideration for the Spring Semester, April 1 for summer sessions, and July 1 for Fall Semester. This will help to ensure that the Associate Dean and the Appropriate Health Service have sufficient time to review the request and facilitate re-enrollment as appropriate. If materials are received after the relevant deadline, the College will make reasonable efforts to review the request in a timely manner.
- B. Have the student's treatment provider(s) send a report to the Appropriate Health Service documenting the provider's work with the student, the student's clinical status, and an opinion as to the student's readiness to safely and successfully resume academics and college life. The student's treatment provider may also include any conditions or recommendations for ongoing treatment, or other suggestions to support the student's academic and personal well-being upon returning to the College. The Appropriate Health Service relies heavily on information received from the student's treatment provider. Students will be asked to provide Release of Information Forms so that representatives of the Appropriate Health Service may communicate with treatment providers and others as appropriate regarding the student's return.
- C. As required by the Associate Dean depending upon the nature and individual circumstances of the medical withdrawal, provide information to the Appropriate Health Service showing that the student has reasonable capability of day-to-day functioning while a student at the College, with or without accommodation. There are several ways a student might be able to sufficiently demonstrate their day-to-day functioning, and the Associate Dean will discuss appropriate options with the student upon request.
- D. As required by the Associate Dean depending upon the nature and individual circumstances of the medical withdrawal, provide a brief written statement describing: (i) the student's experience away from the College including the activities undertaken while away; (ii) the student's current understanding of the factors that led to the medical withdrawal and any insights the student has gained from treatment and time away; and (iii) how the student plans to ensure a successful return to the College and to sustain their academic and personal well-being.

Reasonable effort will be made to respond to a student's request to return from a medical withdrawal within ten business days of receipt of all required materials. Additional time may be required based on extenuating circumstances.

If the information received from a treatment provider requires further explanation or clarification, or when there is a disconnect between the medical information provided and other information in the student's file, the Appropriate Health Service may contact the treatment provider to obtain additional information. In exceptional cases as required by the Associate Dean depending upon the nature and individual circumstances of the medical withdrawal, the student may be asked to obtain a second, independent evaluation from a licensed medical professional approved by the Appropriate Health Service. The purpose of the independent evaluation is to document the student's clinical status and provide an opinion as to the student's readiness to safely and successfully resume academics and college life.

Upon receipt of all required materials, the Associate Dean and the Appropriate Health Service, in consultation with others as appropriate, will determine if the student appears ready to resume academics

and college life. If approved to return, the student will be required to check-in with the Appropriate Health Service to review the student's current safety and plan for sustained health, including recommendations for ongoing treatment and/or other support services as appropriate.

Students with disabilities are eligible for reasonable accommodations. Students are responsible for communicating any requests for accommodation to the Office of Accessibility Resources. Detailed information on the process for requesting accommodations is available at the Office for Accessibility Resources website: <http://studentportal.babson.edu/content/accessibility-resources>.

The student will be approved to return to the College when the documentation demonstrates that the student is ready to safely resume studies and be a successful member of the campus community. If approved, the student will be notified in writing and informed of any applicable academic, housing, administrative, or other requirements for return.

If the student is not approved for return from a medical withdrawal, the student will be notified in writing along with recommendations that will enhance the likelihood that a future request to return will be granted. The student may appeal the denial of their request to return from a medical withdrawal in accordance with the Appeal process set forth below.

6. APPEALS PROCESS

A student has a right to file a written appeal ("Appeal") to the Vice President requesting review/reconsideration of: (i) the denial of a request for VMW; (ii) the denial of a request for return from a medical withdrawal; (iii) the implementation of a CIMW; or (iv) the implementation of an EIMW. The Appeal must be submitted to the Vice President within five business days of the date of the notice to the student.

The basis for the Appeal are limited to the following: (i) material information or evidence not considered in the original determination; (ii) new information or evidence that was not available at the time of the original determination; and/or (iii) a material deviation from procedures that was prejudicial to the student and that affected the outcome of the original determination. Appeals made on other grounds will not be considered.

As appropriate, the student should include relevant supporting documentation with the Appeal. The Vice President will carefully consider the Appeal and any supporting documentation and render a final decision based on the best available information and an individualized review of the facts and circumstances.

A final decision on the Appeal of the implementation of an EIMW will be made within three business days of receipt. Final decisions on all other appeals will be made within ten business days of receipt, or the Vice President will notify the student that additional time will be necessary to consider the Appeal. The decision of the Vice President on the Appeal is final and not subject to further review.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

The Federal Family Educational Rights and Privacy Act (FERPA or Act) of 1974 (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records. "Education records" are "those records, files, documents and other materials which

- (i) contain information directly related to a student; and
- (i) are maintained by an educational institution."

FERPA affords students certain rights with respect to their education records.

These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the College receives a request for access. Students should submit to the Registrar written requests that identify the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the student believes is inaccurate or misleading. Students may ask the College to amend a record they believe is inaccurate or misleading. They should write to the Registrar, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

Note: *The right to challenge grades and notations about disciplinary decisions does not apply under the Act unless the grade assigned or the disciplinary decision rendered was inaccurately recorded.*

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that the law authorizes disclosure without consent.

One exception that permits disclosure without consent is disclosure to college officials with legitimate educational interests. A "college official" is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including Public Safety and Health Services); a person or company with whom the College has contracted as its agent to provide a service instead of using College employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or another student serving on an official committee, such as a disciplinary or grievance committee, or assisting another college official in performing their tasks.

A college official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibilities for the College.

Another exception is the release of "Directory Information," which may be released without a student's consent unless specifically prohibited by the student. The following is considered Directory Information:

- the student's name
- permanent and local addresses
- telephone listings
- electronic mail addresses
- digitized photographs and images

- date and place of birth
- major field of study
- grade level
- enrollment status
- dates of attendance
- past and present participation in officially recognized activities, organizations and sports
- weight and height of members of athletic teams
- degrees, honors, and awards received
- the most recent previous educational agency or institution attended by the student

A student's grades are considered Directory Information only to the extent that Dean's List, graduation honors, and/or awards may be published. Individual grades and GPA information are not Directory Information and will not be released without the consent of the student.

Upon request, the College also discloses education records to officials of another school in which a student seeks or intends to enroll, or where the student is already enrolled, so long as the disclosure is for purposes related to the student's enrollment or transfer.

Disclosure without consent also may be made concerning the following: final results of a disciplinary proceeding in which a student was found to have violated College rules concerning a crime of violence or a non-forcible sex offense. The outcome may be disclosed to the victim regardless of whether a violation was found. Alcohol or drug violations may be disclosed to parents if the student is under age 21. The College reserves the right to disclose information about students to their parents, regardless of the student's age, without the student's written consent in cases involving the student's health and well-being or in the case of a change of student status (including, but not limited to, loss of housing, pending disciplinary proceeding, suspension, expulsion or to comply with a court order or subpoena). For the purposes of this Policy, "parent" means a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent in the absence of a parent or a guardian.

The term "education records" does not include the following records, and therefore such records are not governed by this Policy:

- A. Records of instructional, supervisory and administrative personnel and educational personnel ancillary to those persons, which:
 - i. are kept in the sole possession of the maker of the record
 - ii. are not accessible or revealed to any other individual, except to an individual who performs on a temporary basis the duties of the individual who made the record
- B. College Public Safety Department records which are created and maintained by campus police solely for law enforcement purposes.

- C. Employment records, when College employment did not result from and does not depend upon the fact that an individual is a student at the College, provided that the employment records:
 - i. relates exclusively to the individual in that individual's capacity as a College employee
 - ii. are made and maintained in the normal course of business
 - iii. are not available for use for any other purpose

All records relating to a student who also is an employee of the College are included in the definition of education records, if the student's employment is contingent upon the fact that they are a student. For example, work-study program records are education records.

- D. Health records, which:
 - i. are created or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional acting in their professional or paraprofessional capacity, or assisting in that capacity;
 - ii. are created, maintained or used only in connection with the provision of treatment to the student; and
 - iii. are not disclosed to anyone except to other than individuals providing the treatment, except that the records may be personally reviewed by a physician or other appropriate professional of the student's choice.

For the purpose of this definition, "treatment" does not include academic and career advising, tutoring, disability management counseling, or any activities which are part of the program of instruction offered by the College. The Health Insurance Portability and Accountability Act of 1996 (HIPAA) Privacy Rule excludes student medical treatment records and other records protected by FERPA.

- E. Applicant records of individuals who do not enroll in or register with an academic program of the College. If and when applicants become students, their applicant records become education records, which are then accorded the same privacy rights as any other education records governed by this Policy.
- F. Records (i.e., alumni records) about a person containing only information obtained from that person after that person is no longer a student, or relating to that person and obtained from others after that person is no longer a student.

RESTRICTING THE RELEASE OF DIRECTORY INFORMATION

If students do not wish to authorize the release of Directory Information and do not want Directory Information to appear in the Student Directory, they must indicate so through the "My Info" section of the Hub. The restriction will be promptly initiated in any electronic media. For any printed media, the restriction will be initiated as of the next printing. At any time after restricting the release of Directory Information, students may change their minds and choose to authorize the College to release Directory Information. Student can grant such authorization at any time by editing the "My Info" section of the Hub. Students should be aware of the possible consequences of withholding Directory Information, such as missed announcements, mailings and messages, non-verification of enrollment or degree status, and omission from the Commencement program.

4. Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of federal law as they pertain to access and disclosure of students' education records.

The name and address of the Office that administers this law is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.
Washington, DC 20202-5920

1-800-USA-LEARN (1-800-872-5327)

Questions or concerns about the privacy of students' education records or these procedures may be brought to the attention of the Registrar's Office, Hollister Hall, Room 334.

PROGRAM TRANSFER AND STATUS CHANGES

With permission from Graduate Academic Services and under certain conditions, students may transfer from one MBA program (Two-Year, One-Year, Part-time, and Blended Learning Miami MBA) to another MBA. All students requesting a change in program status must be in good academic standing. Students also may be subject to loss of earned credits due to the differences in curriculum across programs. If a current student seeks to transfer from the Part-time MBA into a cohort-based program the student may be required to complete their core courses in the Part-time format. In cases where a final grade is available, the final grade will appear on the transcript and will be used to calculate the student's final program GPA. MS students are not allowed to transfer to the MBA program; they must apply.

- One-Year and Two-Year MBA students who wish to change from full-time to part-time status may do so after completing the first semester of core.
- Blended Learning Miami students should contact the Office of Graduate Academic Services for appropriate guidelines on program changes.
- MSEL students are not eligible to change from full-time to part-time status.
- MSF and MSBA students may transfer from full-time to part-time status after completing the core and with the permission of the Office of Graduate Academic Services.
- Part-time MBA students who wish to change from part-time to full-time status may do so at any time (when applicable), provided they are in good academic standing and meet all conditions for doing so, including conforming to state immunization requirements and carrying health insurance.

Students can access the electronic form to change their status through the [BabsonHub](#). Subject to policies regarding the time in which degree requirements must be satisfied, students changing their status will have the same degree requirements as when they entered the F.W. Olin Graduate School of Business and

will remain in the program in which they were accepted. Students should contact the Office of Graduate Academic Services for more information.

ORIENTATION FOR MBA AND MS STUDENTS

Students entering the MBA, MS, or CAM programs are required to attend orientation typically held at the beginning of their first semester. This includes programs with a fully online orientation. The purpose of orientation is to introduce new students to one another, to the program curriculum, and to Babson's approach to instruction and may also include required academic pre-work.

MILITARY ACTIVATION

In the event that a student who is a military reservist is called to active duty and is not able to complete an academic semester or module, they will be entitled to a full refund of tuition and fees and a prorated refund of room and board charges.

SEPARATIONS FROM COLLEGE

Any student who wishes to take a leave of absence or withdraw from the College must notify the Office of Graduate Academic Services in writing and meet with an academic advisor.

International students in F-1/J-1 immigration status who withdraw, are suspended, or take a leave of absence will lose their permission to remain in the United States in F-1/J-1 immigration status (exceptions may exist for documented medical conditions with prior approval from the Glavin Office of Multicultural & International Education (Glavin Office)). Any international student in F-1/J-1 immigration status who expects to separate from the College must speak with an international student advisor in the Glavin Office about immigration implications and possible options **before any action is taken**. More information can be found [here](#).

REGISTRATION

Students, with the exception of MSEL and Blended Learning Miami students, register for courses through the online Registration link under Academic Resources on the [BabsonHub](#). All active graduate students receive, via Babson email, registration information and dates to access the online application. MSEL and Blended Learning Miami students will be enrolled by the Registrar's Office.

- Entering One-Year and Two-Year students will be enrolled in their assigned module sections by the Registrar's Office before the start of the semester.
- MSBA and MSF students will be enrolled by the Registrar's office for all their core courses
- MSEL students will be enrolled by the Registrar's office for all courses.
- Elective registration for all programs will be available online using the Registration link.

For tuition payment information, refer to the Tuition, Fees, Payment Policies, and Financial Aid section of this handbook.

Course Changes

Course changes to electives and Part-time MBA core may be made during registration and through the add/drop period. Students may not make course or schedule changes in the MSEL and Blended Learning Miami MBA program, the One Year and Two Year MBA core, MSBA, or MSF core. Students in these programs should contact Graduate Academic Services for additional information on the impacts of schedule changes to their course of study.

Deadlines for Adding or Dropping from Courses

Students may add or drop courses from their schedule without a financial or academic penalty up to the end of the add/drop period with the exception of students in cohort-based programs as noted above. The add/drop period runs for approximately ten days at the start of each semester unless otherwise noted in the course listed. The specific date is posted to the [Registrar's website](#). Students are strongly advised to review the add/drop deadline carefully and are advised to make all schedule changes prior to this deadline. After the end of add/drop students may only withdraw from courses and be subject to academic and/or financial consequences. There are no exceptions to this policy or the deadline.

Deadlines for Withdrawing from Courses

After the end of the add/drop period students may withdraw from a course. Withdrawing from a course will result in a W on the student's transcript. Additionally, some or all tuition will be forfeit. Ceasing to attend class does not constitute an official withdrawal. Students ceasing class attendance after the last date to withdraw will receive a final grade based on the normal course requirements, with a numerical value of "0" calculated into the final grade for all course requirements not completed. Students must officially withdraw from a course before the withdrawal date in order to avoid consequences up to and including failing the course. The [Registrar's website](#) lists the withdrawal dates for all first, second, and full session courses.

Students who withdraw from a course can no longer attend or participate in that course and will be removed from the Canvas site. In the event the College suspends or dismisses a student, tuition and other charges will be calculated in the same manner as for students withdrawing.

Students with any questions about their status in the F.W. Olin Graduate School of Business should contact the Office of Graduate Academic Services, Ext. 4474.

ONLINE COURSE LISTING

Students can view all information about course offerings by accessing the Course Listing found under the Academic Resources section on the [BabsonHub](#). Clicking on a course title displays the course description. The Course Listing automatically updates whenever a change is made. Students can check the availability of courses at any time to see the number of students enrolled in a particular course and the maximum allowed.

SCHEDULE CONFIRMATION

Students may view their course schedules, grades, or other options under the Academic Resources section on the [BabsonHub](#). Schedule confirmations are not mailed to students.

GRADUATION HONORS

Honors at graduation are awarded to graduate students by program as follows:

- Summa Cum Laude: 3.80 to 4.00
- Magna Cum Laude: 3.70 to 3.79
- Cum Laude: 3.60 to 3.69

Honors are determined based on GPAs of all graduates from within the current academic year.

TUITION, FEES, PAYMENT POLICIES, AND FINANCIAL AID

TUITION AND OTHER EXPENSES

The Babson College Board of Trustees sets the tuition and fee rates for each academic year. For current tuition/fee rates and payment deadlines, please visit www.babson.edu/admission/tuition-aid. Questions concerning tuition, fees, payment policies, and financial aid should be directed to Student Financial Services at 781-239-4219 or by email to sfs@babson.edu.

Some or all instruction for all or part of the 2020-2021 academic year may be delivered remotely or in a blended format. Tuition and fees have been set regardless of the method of instruction and will not be refunded in the event instruction occurs remotely or in a blended format for any part of the academic year.

BILLING PROCEDURES

Students are notified via email before each payment deadline. Student account information and balances due are available online on the Babson Hub. Although the F.W. Olin Graduate School of Business at Babson College recognizes that many graduate students receive financial aid or monetary assistance from third parties, the ultimate responsibility for satisfying all financial obligations rests with the student.

Please note that failure to receive notification of a payment deadline does not eliminate payment obligations or prevent late payment penalties.

Tuition charges are generated from information provided by the registrar. Contact the Registrar's Office with any questions about the courses for which one is registered and being charged. Information about withdrawing from courses and the resultant tuition adjustments is available in the section titled Course Changes.

Admission enrollment deposits are non-refundable after 3 business days. For information about alumni and corporate tuition reduction programs, please visit www.babson.edu/admission/tuition-aid.

Payment for miscellaneous charges is typically due 10 days after the charges have been posted. Questions about any of the charges listed below should be directed to the appropriate office:

Motor vehicle registration and parking violation charges:	Public
Safety One Card replacement:	Public
Safety	
Prescription and lab charges:	Health Services
Room charges:	Housing
Unreturned book/damage charges:	Horn Library
Webster Center equipment:	Athletics

Babson charges a \$50 fee if a payment made from a checking or savings account cannot be processed because of insufficient funds or incorrect information.

PAYMENT METHODS

Online: Electronic payments can be made through ePay on the [BabsonHub](#), which directs the payer to Tuition Management Systems (TMS) online services. Online options include making a payment from a U.S. checking/savings account or credit card. There is a processing fee assessed for credit card payments.

By Phone: Students may call Tuition Management Systems to make a payment from a U.S. checking/savings account or credit card. There is a processing fee assessed for credit card payments.

By Mail: Students may send checks and money orders to Student Financial Services. Checks must be drawn in

U.S. dollars from a U.S. bank. Please make payable to Babson College and mail to Babson College, Student Financial Services, P.O. Box 57310, Babson Park, MA 02457-0310.

Wire Transfer: Babson College has partnered with Flywire to streamline the tuition payment process for both international and U.S. students who need to wire funds to the College. International students are offered favorable exchange rates, and in most cases can pay in their local currencies. Go to the [BabsonHub](#) or <https://www.flywire.com/pay/babson>.

In Person: The College accepts cash, checks, and money orders in person at Student Financial Services.

Monthly Payment Plans: For a list of payment plan options and to enroll in a plan, go to the [BabsonHub](#) or <https://babson.afford.com>.

Third-Party Payments: Students whose employers will guarantee direct payment to Babson College upon receipt of invoice and without any conditions (such as a minimum grade requirement) should submit their employer's purchase order or authorization to Babson in lieu of payment by the semester payment deadline. They must submit a new purchase order or authorization each semester.

Extended Payment Plan for Company-Sponsored Students (available to Blended Learning MBA, Evening MBA and CAM students): This plan is designed for Blended Learning MBA, Evening MBA and CAM students whose companies reimburse the students directly once they complete the course work. Students may defer two-thirds of their tuition payments until after the end of the semester (\$50 per semester application fee). Students must submit a new Extended Payment Plan application each semester. Babson College reserves the right to deny enrollment in the plan to any student who misrepresents their eligibility for company-sponsored tuition reimbursement benefits or who does not meet the Extended Payment Plan enrollment or payment deadlines. To enroll, go to the Babson Hub or contact Student Financial Services

Late Payment Penalties

A \$200 late payment fee will be charged to any student who has not met the semester payment deadline. Also, the F.W. Olin Graduate School of Business will hold academic transcripts, hold diplomas, prohibit registration for a subsequent semester, and prohibit participation in Commencement exercises for any student who has an outstanding balance owed to the College. Unpaid accounts will be referred for collection action, with the fees of any collection agency, which may be based on a percentage at a maximum of 33 1/3 percent of the debt, and all costs and expenses, including reasonable attorneys' fees, to be borne by the student. Students who wish to appeal a late payment penalty must do so in writing to Student Financial Services within 10 days of notification that the penalty has been imposed.

Refunds of Credit Balances

Students who wish to have credit balances refunded to them should submit refund requests online on the Babson Hub. Starting at the end of the add/drop period, requests for credit balance refunds received by Tuesday at noon generally will be refunded on Thursday by 2:00 p.m. Refunds are not issued during the add/drop period. Also, refunds are not issued based on financial aid which is pending but not yet disbursed. Refund checks are made payable to the student unless otherwise requested. Students who have federal

Title IV student aid disbursements (from the Federal Direct or Grad PLUS Programs) in an amount that exceeds the costs of tuition, mandatory semester fees, and any room and board charged by Babson, will automatically have the amount of the Title IV credit balance refunded by check to their mailing address.

Refund Advances

If an emergency arises for which students need assistance or an advance on forthcoming loan funds, they should contact Student Financial Services. Requests should be made only for unanticipated expenses and may not be used to pay for tuition or fees.

FINANCIAL AID PROGRAMS

The F.W. Olin Graduate School of Business offers a variety of financial aid programs and financing options to graduate students. Approximately one-half of all graduate students receive some form of assistance. The Student Financial Services staff works with students to review options, determine eligibility for specific programs, and help select the best possible means for financing their graduate degrees at Babson. Details about the financial aid programs, criteria, and application procedures are available on Babson's website at www.babson.edu/admission/tuition-aid/graduate/Pages/home.aspx.

For those who qualify, awards and award amounts are available online on the [BabsonHub](#).

Federal Student Aid

Application Procedures: United States citizens and Permanent Residents of the United States are encouraged to apply for federal financial aid. Federal student loans are awarded to those who qualify.

To apply, submit the following documents each academic year:

Free Application for Federal Student Aid (FAFSA), available online at www.fafsa.gov. List Babson College, Babson Park, MA, in the school listing section of the FAFSA. Babson's Title IV School Code is 002121. Babson recommends selecting the option to use the IRS Data Retrieval Process.

Additional documents may be requested to complete the verification of the financial aid application.

Financial aid deadlines for each degree and certificate program are listed on Babson's website at <http://www.babson.edu/admission/tuition-aid/graduate/Pages/deadlines.aspx>.

Maintaining Eligibility: Students must be enrolled at least half time each semester to maintain eligibility for federal aid. Blended Learning students who progress on schedule with their cohort are considered half-time. CAM and MSF students enrolled in a minimum of 4.5 credits are considered half-time, and for all other programs a minimum of 6 credits is considered half-time.

The Academic Policies section of this handbook outlines the F.W. Olin Graduate School of Business policies on satisfactory academic requirements. According to federal regulations and Babson College policy, students must be making satisfactory academic progress to be eligible for financial aid. The eligibility depends on making progress toward the degree and maintenance of a satisfactory grade point average. Students who are not on pace to complete the program within 150 percent of the published timeframe will receive a warning letter. Pace is determined by dividing the cumulative number of hours the student has successfully completed by the cumulative number of hours the student has attempted.

If the cumulative grade point average (GPA) falls below the required minimum, the student will be placed on financial aid warning status for the following semester. If the GPA is not brought up to the required level by the end of the warning semester, the student may lose funding in future semesters.

Students who are denied financial aid may appeal the decision in writing to the Director of Financial Aid within 30 days of receiving notification. Decisions on appeals will be made within two weeks of the appeal.

In no case will funds be awarded to a student who has completed and/or attempted credits in excess of 150 percent of those required for the degree.

Earned vs. Unearned Financial Aid: For a student receiving financial aid who withdraws from the College, Babson will calculate the portion of the semester's financial aid that must be returned to the funding source, because it is unearned, as follows:

- If the approved date of withdrawal is before or during the official drop/add period, 100 percent of the financial aid will be considered unearned and will be returned.
- If the approved date of withdrawal is after the last day of the official drop/add period, and on or before the 60 percent point in the semester, the earned financial aid will be calculated on a pro-rated basis, equal to the percentage of the semester that was completed before the student withdrew or took a leave of absence. The balance is considered unearned and will be returned.
- If the approved date of withdrawal is after the 60 percent point in the semester, 100 percent of the financial aid will be considered earned, and none will be returned.

Return of Financial Aid Funds: Babson will return the lesser of either: a) the unearned amount of financial aid, or b) the amount of unearned institutional charges. In the case where the unearned aid is greater than the unearned institutional charges, the student is obligated to return the difference.

Federal Title IV aid will be returned in the following sequence:

- Federal Direct Unsubsidized Loan
- Federal Direct Graduate Plus Loan

Any other unearned financial aid will be returned to the funding source.

Please keep the following points in mind when considering a leave of absence or withdrawal.

- You are eligible for institutional financial aid for only "one time through" the academic requirements you must complete in order to graduate from Babson. If you leave during the middle of an academic period and have to repeat it in order to graduate, you will not receive institutional financial aid for the repeated academic period.
- If you have a federal student loan, repayment begins after you leave school or drop below half-time, and after your grace period has been utilized. If you return, you will be eligible to defer your payments as long as you remain enrolled at least half-time.
- If you decide to return to Babson, please contact Student Financial Services in advance of your expected date of return to request financial aid information.

Veterans Benefits and Transition Act of 2018

As part of the Veterans Benefits and Transition Act of 2018, section 3679 of title 38, the following policies apply to any individual ("covered individual") who is entitled to educational assistance under Chapter 31, Veteran Readiness and Employment, or Chapter 33, Post-9/11 GI Bill® benefits.

- The College will permit any covered individual to attend or participate in the course of education during the period beginning on the date on which the individual provides to the College a certificate of eligibility for entitlement to educational assistance under Chapter 31 or 33 (a "certificate of eligibility" can also include a "Statement of Benefits" obtained from the Department of Veterans

Affairs' (VA) website – eBenefits, or a VAF 28-1905 form for Chapter 31 authorization purposes) and ending on the earlier of the following dates:

- The date on which payment from VA is made to the College.
 - 90 days after the date the College certified tuition and fees following the receipt of the certificate of eligibility.
- The College will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual's inability to meet his or her financial obligations to the College due to the delayed disbursement funding from VA under Chapter 31 or 33.
 - The College may request or require Chapter 31 and Chapter 33 students to take the following actions:
 1. Submit a certificate of eligibility for entitlement to educational assistance no later than the first day of a course of education.
 2. Submit a written request to use such entitlement.
 3. Provide additional information necessary to the proper certification of enrollment by the College.
 4. Additional payment may be required or a fee may be imposed for the amount that is the difference between the amount of the student's financial obligation and the amount of the VA education benefit disbursement.

"GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>."

COMMUNITY STANDARDS

Please refer to this separate document [Babson College Student Code of Ethics](#). This document can be accessed via the [BabsonHub](#).

You are required to know the policies and procedures set forth in both the *Graduate Student Handbook* and *Babson College Student Code of Ethics*.
